

RPW9 Countertop

The RPW9CT unit is the absolute highest-quality premium purified water dispenser that utilizes a 5-stage water purification process which produces the purest, cleanest hot and cold water. Our units use silver ions in the resin and stainless steel reservoirs to inhibit bacterial and viral growth.

RPW9CT Features:

- Touchless sensor operation
- Innovative design and technology
- Stainless steel reservoirs
- State-of-the-art purification
- Built-in leak detection system
- Fits on most standard countertops

Capacity: Cold water 1 gallon/Hot water .5 gallon
Dispense Height: 10.7"
