RPW12 Elite Cooler

The RPW12 High capacity cooler uses state-of-the-art reverse osmosis purification to produce tulip ice and hot, cold, and ambient water from recessed spigots. Its ergonomic height, touch-activated dispensing design offers no-back bending, sanitary dispensing. This model has the capacity to produce up to 38lb of ice per day.

RPW12 Features:

- Hot, cold, and ambient water plus ice dispenser
- Elegant "bullet" ice
- Touch-activated sensor operation
- Ergonomic comfort-height design for no-bend dispensing
- State-of-the-art reverse osmosis
- Leak protection system
- Energy efficiency mode
